

# Outdoor Multi-functional Surveillance System

Integrated with Motion Detector, Lighting, Video Surveillance and Storage

## SUREN™

SUREN is founded by Alfred Lam in 2004. Before setting up SUREN, Alfred worked for C&K System Inc., as President of Asia for 20 years where he was in charge of manufacturing, marketing and R&D. SUREN is made up of several business divisions, from its primary business of manufacturing to design and distribution of its own products and also that of other leading branded products — each with its unique product range. SUREN products have ROHS, ISO-9001:2000 as well as CCC.

### Reliable Detection

The SV-5815 Series provides wide camera selections in terms of interface. It can be embedded with IP, analog cable or SD card. Camera resolution can be standard as well as megapixel to offer crystal clear images. Besides, this series offers variable and fixed focal lens; color or B/W based on user requirement.

The SV-5815 Series features M-5815 M-TEC™ Motion Sensor, DFIR™ Anti-Sway and 10 GHz Microwave Doppler to ensure product stability, which truly reduces the false alarm rate. Besides, this product has MP-2000 Camera Base with Lighting, enabling waterproof enclosure with sun shade, visible and infrared illumination, programmable delay timer, loudspeaker and microphone.

### Easy Installation

The SV-5815 has easy access for wiring. It has ample wire/connector volume and also features standard swivel-mount (MB-200 swivel-mount).

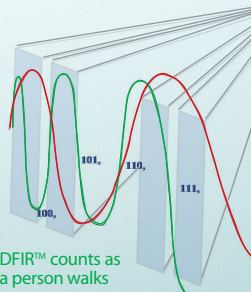

Besides, this series provides more wall mount options, including deep wire channels, multi-cable entry and knock-out holes. Lastly, it features 10-minute sensor zone finder mode, providing ease-of-use.

M-5815 senses actual motion — not swaying objects

DFIR™ counts as a person walks

DFIR™ counts not from a swaying tree

### Suren Systems, Ltd.
